
38TH ANNUAL TREE PROGRAM ORDER FORM

Join the Village's reforestation efforts by ordering trees for fall planting in your yard. The trees are purchased through the Suburban Tree Consortium (STC), which is comprised of 30 municipalities in the western suburbs who banded together to contract with Wilson Nurseries, Of Hampshire, Illinois. Although there is no guarantee that accompanies the tree, mortality within the consortium has been approximately 1% in recent years.

Because the trees will be dormant at the time of delivery, conditions will be ideal for the development of a healthy root system. However, since deliveries are not until late October, residents are urged to plant their trees promptly after receiving them to avoid any danger of freezing or drying. Since the trees are grown locally, they are well-adjusted to soil conditions. Also, since they are balled and burlapped, the trees adapt more readily to their new location and do not require extensive pruning.

Please remember that under the provisions of the Village's tree regulations, a permit must be obtained if any of the trees purchased through this program are to be planted in the parkway. There is no fee for the permit; however, your application should be approved before you accept delivery.

As shown on the order form, the following trees will be available for purchase. Some quantities are limited and are first come, first serve. Pictures are available for inspection at the Village Hall:

'Tina' Sargent Crabapple -2.0 caliper - height to 6' feet. A dense, dwarf form whose profuse bright red buds open to single white flowers that mature to small 1/4 inch red fruit. Striking as a small specimen, for lining a drive or framing an entrance. Leaves turn gold in fall. Unusual horizontal branching pattern provides winter interest.

Royal Raindrops Crabapple -2.0 caliper - height to 20' feet. Small ornamental tree with upright form, deep purple leaves, good branching and density. Bright pinkish red flowers in spring form attractive bright red fruit in fall that remain on the tree into winter. Disease resistant.

'Ivory Silk' Japanese Tree Lilac - 2" caliper - height to 25 feet. Large plumes of small creamy-white flowers smother branches in early summer. Shapely oval form. Young stems have cherry like reddish brown bark for winter interest.

'Frontier' Hybrid Elm - 2" caliper - height to 40 feet. Upright, pyramidal, symmetrical shape with proven superior resistance to Dutch Elm disease. Lovely red-purple fall coloration. Perfect for use in smaller landscapes.

'Autumn Blaze' Maple - 2" caliper - height to 50 feet. Brilliant and long lasting orange red color. Broadly oval form with medium green foliage. This maple is fast growing and will benefit from pruning.

'Shademaster' Honeylocust - 2" caliper - height 40 to 50 feet. Rapid growing small leafed shade tree. Considered by many to be one of the best honeylocust cultivar. Rounded form with dark green leaves turning to golden yellow in the fall.

Orders must be placed no later than Friday, October 6th, 2017. There is a delivery fee of \$10/tree. Tree delivery will begin after October 16th and trees will only be delivered to the driveway. Residents will be contacted prior to delivery. We cannot make arrangements for special deliveries at another time. Delivery could be delayed if it rains. If this happens, residents who ordered trees will be notified by telephone and given another delivery date.

FALL BRUSH PICKUP

Begins Monday, October 9th. Please have all branches at the curb no later than 7:00 a.m. This applies to the entire village.

For more information and program details, visit www.burr-ridge.gov or call Public Works at 323-4733.
