

# BURR RIDGE

PUBLIC WORKS

## NOTICE OF CONSTRUCTION

The Village of Burr Ridge is pleased to report that the 2016 Garfield Avenue Resurfacing Project will begin the week of July 25th. This project should be completed by late August, depending on weather. The contractor completing this project is Chicagoland Paving of Lake Zurich, Illinois.

This project is substantially funded by a federal Surface Transportation Program grant. These rare grants are tremendously beneficial toward maintenance of our roads and upholding the aesthetics of our Village. The Village's annual road programs already expend its entire allotment of the State's Motor Fuel Tax and require over \$500,000 from general Village funds; therefore such grants leverage the Village's limited budget toward vital infrastructure improvements.

### Location

Garfield Avenue between 59<sup>th</sup> Street and 63<sup>rd</sup> Street.

### Description

Work will include replacing sections of sidewalk, milling the old pavement and overlaying the street with a new asphalt surface. Areas of deteriorated pavement will also be patched.

### Impacts to Residents, Schools, and Commuters

As always, road construction can be inconvenient, so kindly allow extra time or use alternate routes when equipment and crews are working nearby. Garfield Avenue will remain open during construction, but brief delays can be expected while crews are working on this project.

Toward the final stages of this project a rough-grooved road surface is created and sprayed with an oily liquid that binds new asphalt to the old pavement. When "Fresh Oil" signs are posted, please drive slowly because this oil can adhere briefly to tires and track across your driveways.

The Village has partnered with Engineering Resource Associates, Inc. for contract oversight and to ensure the work is completed efficiently and safely. We would like to thank you in advance for your patience and cooperation during this important project.
