

Join the Village's reforestation efforts by ordering trees for fall planting in your yard through the Suburban Tree Consortium (STC). The STC comprises over 30 municipalities in the western suburbs that have banded together to take advantage of large scale buying power.

No guarantee accompanies the trees, but mortality within the consortium has been approximately 1 % in recent years. Because the trees will be dormant at the delivery time, conditions will be ideal for developing a healthy root system. However, since deliveries are not until late Fall, residents are urged to plant their trees promptly after receiving them to avoid any danger of freezing or drying. Since the trees are grown locally, they are well-adjusted to soil conditions. Also, since they are balled and burlapped, the trees adapt more readily to their new location and do not require extensive pruning.

Please remember that under the Village's tree regulations, you must obtain a permit if you plan to plant trees in the parkway. There is no permit fee, and your application must be approved before you accept delivery.

Trees are provided by Spring Grove Nursery of Mazon, Illinois. Visit www.springgrovenursery.com for tree descriptions.
