

Due to unprecedented demand for vaccinations, MIDC (Metro Infectious Disease Consultants) has limited their eligible categories to:

- (1) ANYONE 65 and older (from anywhere)
- (2) Fire and police in Burr Ridge
- (3) Childcare workers in Burr Ridge
- (4) Teachers in Burr Ridge

IF you are within one of these 4 categories in Burr Ridge, then **please call 630-654-4201 to be placed on a list for an appointment to get the vaccine.**

MIDC is located at 901 McClintock Drive in Burr Ridge.

MIDC (Metro Infectious Disease Consultants):

Metro Infections Disease Consultants clinic in Burr Ridge is currently accepting phone calls from people interested in making an appointment for a COVID immunization. Because of the high volume of inquiries, Metro Infections Disease Consultants have a call center. Customer service representatives will be taking interested parties' names, telephone numbers and birthdates; or parties' names, telephone numbers and confirming professions. (Only individuals over 65 from ANY community OR Burr Ridge healthcare workers, Burr Ridge teachers, Burr Ridge police or Burr Ridge fire personnel will be eligible for receiving the COVID immunization from Metro Infections Disease Consultants during this time). All individuals leaving their name, phone number, birthdate or profession will receive a return phone call by the end of day Friday, January 22, 2021. Return phone calls will be placed based on where you are on the list pertaining to when you made your initial call. The representative from Metro Infectious Disease Consultants returning your call will consult with you regarding your availability for scheduling the immunization. Immunizations will begin on Monday, January 25, 2021, and take place Monday through Friday, 10:00 a.m. through 4:00 p.m., with appointments every 5 minutes. Several nurses will be on staff administering the vaccine. Both Pfizer and Moderna will be administered. Metro Infectious Disease Consultants is only scheduling appointments for the amount of immunizations they receive. They do not know how many immunizations they will be receiving.
